Priority Number: 2001-04- CN2001000114662

Abstract: The comprehensive leakage protection plug-socket is used to prevent electric shock and fire caused by missing earthing line, leakage, etc. effectively. By means of microelectronic technology, various functions are integrated into one small compact structure and the protection socket has electromagnetic switch. The present invention has compact structure, small volume, low cost and very low power consumption. The protection plug-socket as one "movable conversion" type protector is suitable for use in movable electrical tools easily losing its earthing line.
